LIVE STOCK.

RETURN of the Number of Horses, Cattle, Pigs, and Sheep upon Farms, and the Number upon Stations, during the Year ending 31st March, 1862.

Description of Land.	Description of Live Stock.			
	Horses.	Cattle.	Pigs.	Sheep.
Farms and land unconnected with stations ...	52,589	243,568	39,592	717,583
Crown and alienated land connected with stations ...	31,468	384,524	3,888	5,521,675
Total	84,057	628,092	43,480	6,239,258

NOTE.—The returns of sheep represent very nearly the entire number in the Colony; but the returns of horses, cattle, and pigs do not include those which are kept in towns or upon the goldfields, except the stock is running upon commons. Horses and working bullocks upon the roads are also excluded. The returns of horses, cattle, and sheep on stations are obtained from the Crown Lands Department, but as there is no assessment upon pigs, and, consequently, no return of their numbers made to that department, an account of those upon stations having purchased land attached is obtained by the agricultural collectors, no return being made of those upon stations consisting of Crown land only, which are not visited. It may be remarked that the assessment returns are made for a period some weeks earlier than that for which the agricultural statistics are collected.

WILLIAM HENRY ARCHER, Registrar-General.

NOTE.—The average duration of the visits appears to be about an hour and a half on the average, and with one trifling exception no injury, either accidental or intentional, has been done to any of the specimens or models, although persons of all classes are admitted without any further formality than signing the visitors' book, or having it signed by another. The large number of Chinese visitors is a curious fact, reaching some thousands in the year.
